

Neuroradiologist

Description

Vulcan Imaging Associates (VIA) is an independent, 30+ physician, fully-subspecialized private practice located in Birmingham, AL serving our patients, community and clients for over 100 years. VIA is one of the largest, well-respected practices in the region and is expanding our neuroradiology division. VIA provides an integrated, efficient workflow and processes built for the Radiologist to optimize workload and physician satisfaction.

The Neuroradiologist has a dedicated schedule to neuroradiology with scheduling flexibility to accommodate work-life balance. We provide 24/7 subspecialty coverage all internal to VIA's team to provide consistency and quality service to our patients and clients. Experience with stroke imaging including CT perfusion and advanced MRI techniques is desired.
